

AMENDMENTS TO THE SPECIFICATION

Please delete the present Abstract of the Disclosure.

Please add the following new Abstract of the Disclosure:

There is provided a process for cleaning wherein a cleaning sheet fed through an image forming apparatus is heated and pressured by at least one of a fixing belt and a fixing roller, and the cleaning sheet removes stains, wherein the cleaning sheet has a support and a layer containing a thermoplastic resin over the support, and satisfies at least one of the following formulae:

$$L1(\text{cm}) > L2(\text{cm}) \text{ and}$$

$$L1(\text{cm}) > L3(\text{cm})$$

wherein L1 is a length of the cleaning sheet in a direction of feeding the cleaning sheet, L2 a perimeter of the fixing roller, and L3 a perimeter of the fixing belt, and the process satisfies at least one of the following formulae:

$$L2(\text{cm}) > L4(\text{cm}) \text{ and}$$

$$L3(\text{cm}) > L4(\text{cm})$$

wherein L4 represents a length of a smallest electrophotographic image-receiving sheet in a direction of feeding the electrophotographic image-receiving sheet.
